Education

- **Reboot Kamp (AneraPlus RBK), 2020-2021**

Reboot KAMP (RBK) is an immersive code boot camp based in Amman, Jordan. RBK with support from co-founding partner Hack Reactor produce English speaking, full stack engineers with market-ready technical skills, strong soft skills, deep problem solving ability who are also autonomous learners. Technical skills include JavaScript, Mongo Express, React, NodeJS, &HTML/CSS. Non-technical skills, include essential communication, collaboration, problem solving and critical thinking.

- **Al-Quds University, 2010 – BSc. in Computer Engineering.**

Work Experience

- **Al Quds Bank (Internship – 3 months):** Training included identifying and dealing with all divisions of the banking systems. Provided technical support, from computer hardware issues to employees' mailing accounts. Back up assistance to entire bank system.
- **Military Medical Service – Computer Engineer/ Project Coordinator (4 Years):** Initially, I began work in the department of administrative affairs for 6 months, before moving up to the financial auditing department where I worked there for another 6 months.

Then I moved on to work in the department of studies and projects where I worked mainly on the creation of an infrastructure project for information technology as well as creating an electronic link between the central administration and other departments in the institution. In addition to working on various projects involving multiple donors. I continued to work in this department for 2 years. After that period, an Information Technology department was established and I was moved there to work as a network engineer, in addition to other duties in the department of studies and projects. With the beginning of 2019, I was appointed as a Director of Public Relations and Media and director of Gender department.

- **Injaz association:** In addition to my work, I was a volunteer with Injaz Foundation for 6 months during 2017 to conduct training programs for female schools.

Training

I have had extensive training in the following programs and centers:

- RBK Full-Stack Boot Camp 2020
- Oracle at Said Khoury IT Center of Excellence in Al-Quds University Main Campus Abu Dees Palestine.
- Passport to Success (PTS)
- PYP – Plan Your Project
- CCNA certification.
- CCNA security course
- CCNA voice course
- CCNP routing and switching course.
- Produce digital stories related to gender issues at MDC in Berzit University

Courses

The following is a list of courses in which I received certification after completion:

- Computer Maintenance
- Auto CAD (engineering drawing)
- C++ (programming fundamentals)
- Communications Systems
- Database
- Network Analysis and Security
- Image Processing: A form of signal processing for which the input is an image, such as a photograph or video frame; the output of image processing may be either an image, a set of characteristics, or parameters related to the image

Projects

- **Service:** This is project done with Django-React that enables users to preview serviz category and handy man and the ability to book an appointment with handy man. Using Authentication done with JWT and bcrypt for passwords.
- **Food Dose:** It is an app that allows the user to find a certain meal and the restaurant that offers this meal and give users more details about the restaurant. Technology that we used Food Dose, React, node.js ,express, express route, MongogDB, Hurok, Authentication JWT, Design Material UI
- **Software Project (Smart Kids using flash and its script language).**
- **2010 Graduation Project (Intelligent Assembling Robot for the Production of Mosaic Plates).**

- **Project Support Logistics capability at MMS funded by the US.** Project was based on the construction of and equipping the institution with logistic support, including office equipment and electronics. This project had three phases that were completed in two, where we had to prepare for the third phase which was based on the computerization of all transactions of the institution.

Main/Personal Skills

- Windows Applications, (Word Processing, MS-Excel, MS-Access, MS-PowerPoint &FrontPage...)
- Configuration for PC.
- Computer Networks
- Databases
- Ability of working in a team or individually according to the job requirement.
- Ability to work under pressure
- Solid communication skills
- Solid presentation skills – developing, editing and presenting material
- Solid analytical skills – thinking outside the box and quick problem solving
- Solid leadership skills – making decisions and taking action towards change
- Always up –to – date with business – related issues through web research and reviewing books and training courses

Languages

- Arabic: Native
- English: Very good
